

Oath of Office

On January first, 1991, the city clerk administered the Oath of Office to Mayor-elect, Doug Meyers. Then the mayor administered Oaths of Office to council-elect Vicki Peterson and Michael Terry.

Note !!!

Hear ye - Hear ye !!!!

Within two weeks recycling bins will be distributed throughout the City of Carver to all residential homes. The commercial district is not included at this time. All three haulers, Mark's Sanitation, Chaska Sanitation and Aagard's are prepared to collect the recyclables. Haulers will pick up bins on normal weekly sanitation pick-up days. Haulers request that these bins be placed beside garbage cans at curbside or where your normal sanitation pick-up spot is located. If these bins are not beside normal garbage cans designated spot, they will not pick up bins.

Recyclable items are beverage cans, newsprint (not glossy inserts, magazines or phone books) and glass. Plastic at this time will not be considered recyclable and will not be picked up. However, remember Carver County has a facility for these items. (Watch for future articles concerning recycling.)

Instructions will be included with the bins when they are distributed. If you have any questions, please call the city office and ask for the City Administrator, Glenda Spiotta or the City Clerk, Patricia Plekkenpol at 448-5353.

*Happy 16th Birthday
Kimberly Kay!*

Municipal Utilities

Municipal Utilities Operator presented drawing of proposed new addition to water pump house for the filtration plant.

Council was also informed that the renewal sewer permit from the MPCA (Minnesota Pollution Control Agency) requires an increase in samples and tests done at pond site. Discussion was held regarding renewal of municipal utilities operator's contract for 1991. It was operator's opinion that inspections should be conducted by his firm. A separate bill would be submitted for this service on per-time basis since fee could be charged back to contractor.

Pumping of septic tanks was estimated to cost \$ 1,500 above contracted amount, as well as additional sampling charges. Suggestion was submitted to defer contract until the February meeting, returning with a finalized report on issue. Dahlgren Township Board rejected use of farm property as a sludge site despite property owner's permission. Motion was made and carried for administrator and utilities operator to draft finalized contract for the February meeting.

Work on the filtration plant has slowed due to the holidays and cold weather. For the benefit of new council members, background information was reviewed. Homeowners were not present at the meeting to discuss costs of upgraded lift station. Administrator suggested upgrading should be assessed rather than loan type arrangements. Motion was made but withdrawn to proceed with assessment procedure. Homeowners were required to initiate assessment request, as well as waive 429 rights.

Township Fire Contract Rates

Administrator and Fire Chief scheduled meeting to discuss the issue of Township Fire Contract rates, but have no recommendations. Rates must be set in February in order for townships to budget for levy purposes.

Winter Youth Night Youth Activities

Waiver form for proposed youth activities in the Village Hall were reviewed. Three sample forms had been obtained from the League of Minnesota Cities (LMC). Attorney had chosen form which best suits the city. Motion was made and carried adopting selected waiver for youth activities.

Forfeited Land

Council had been informed by the State of Minnesota that a particular parcel of land acquired was not being utilized for public utilities as stated in claim. Therefore, the city has the option of filing Change of Use Form or allowing parcel to go back to the state where it would be put back on tax forfeiture lands list. Motion was made and carried to change use of land to parks.

Park and Recreation Board

The Parks and Recreation Board submitted suggestion that the ceiling in the gym of the Village Hall be insulated due to its increased usage. Local contractor informed the council that he was checking project costs.

Motion was made and carried to remove board member on grounds of non-attendance at meetings. No one had applied for the position at that time.

January meeting for Carver-On-The-Minnesota was cancelled due to the Persian Gulf War.

Carver

Fire Department

Jamie Keckley is Fire Equipment Engineer for the Fire Department. He will receive \$ 50 per month for his services.

Insulation of the fire station was discussed. Since the large doors are warped, not insulated and cracked, replacement is being looked at. Replacement costs exceed 1991 budgeted amount. Fire Station Capital Repair and Maintenance budget for 1991 is \$ 2,500, plus approximately \$ 700 in carry-over fund. Replacement cost are estimated to be about \$ 9,000. There was also the issue of installation taking up to six weeks, therefore being of little benefit this winter. Motion was made and carried to return to salesman to question ordering for installation in October and if there would be price increase.

Bid has been received for insulating concrete block walls of fire station. Council was formally invited, also, to attend Fire Department/Township meeting on January 31st.

Abandoned Vehicle Ordinance

Lengthy discussion was held regarding abandoned vehicle ordinance. Motion was made to adopt amended ordinance, but died due to lack of second. Request was made to have ordinance issue scheduled for the February agenda.

Recycling

Carver County has not adopted their recycling ordinance yet. However, relevant information will be included in their ordinance. Administrator relayed that administration paper work is required, therefore, bins have not been distributed until city ordinance is in place. Motion was made and carried by roll call vote adopting recycling ordinance. Request was made to contact Stephen Antoni to help with bin distribution and making signs.

Miscellaneous

Motion was made and carried scheduling special work session on January 22nd.

Motion was made and carried appointing Ralph Bailey to the Planning Commission. Motion was made and carried appointing Stephen Antoni to the Heritage Preservation Commission. Motion was made and carried appointing Councilman Hunter as acting mayor.

Administrator reviewed City Fund Balances Seminar which she attended. New council members are encouraged to attend the League of Minnesota Cities conference.

Council was told that Reuter's may attend the February meeting with a proposal.

Proposed Table of Contents for 1990 Annual Report was presented to the council. Request was made that completion of this report be done for the Town Meeting in May.

One bid had been received for the copy machine and it was sold.

Administrator was directed to get second opinion concerning the safety of property on Fourth Street from the Carver County Building Inspection Department. If the property is considered unsafe, the administrator was directed to update the court order and to have the property made safe. Second report is to be presented at the February meeting.

Parking in front of the business establishment of Carver Heating and Air Conditioning was discussed. Reasoning for diagonal parking during business hours was understood. However, it was the council's opinion that parallel parking after business hours should be addressed.

Resolution regarding organization appointments were discussed. Motion was made and carried by roll call vote adopting resolution for appointments.

Motion was made and carried scheduling a special work session on January 22nd for the assessment policy and recodification reviewal.

Building Inspector Services

Council was presented with a sample list of building inspector services obtained from the City of Sunfish Lake. Services and responsibilities rendered by Building Inspector were discussed. Current inspector was present at the meeting. It was concluded that present contract should be updated. Staff was directed to draft updated requests of inspector for February meeting.

Fire Relief Association

Mayor stated that notice had been received regarding upcoming meeting. Administrator was directed to copy file information and forward this to the Relief Association President and request that written notices be sent to the city clerk and mayor regarding meeting dates and times.

Carver Lions Lions News

Lionesses are busy working, planning and readying for the upcoming BullHead Feed. This event will occur on March 15th, 1991.

Lions have donated monies for Chaska High School students involved in special education project called Washington Close-Up. This is a week long seminar whereupon students will experience how issues are handled in Washington.

Lions are also involved in plans for scheduling a Bingo Night to benefit the Carver/Chaska Boy Scouts.
