

IN MEMORY OF WOODY SWANSON AND ROGER DAUWALTER

## "JAKE BRAKING" ORDINANCE

Administrator drafted an ordinance prohibiting jake braking. Carver County does not have similar ordinance. This type of use of brakes on trucks is difficult to enforce. A copy of the drafted ordinance should be sent to the Sheriff's office.

Jake braking is an accessory brake system which slows the motor down. Thereby, it slows the truck instead of using the conventional brakes shoes, creating break pressure by dampering the exhaust, forcing back compression. this process creates a low growling vibration sound from the engine.

Motion was made and carried adopting the ordinance "prohibiting Jake Braking" on County Road #40 within the City of Carver.

## TOWN LINE ROAD

Council discussed new fill on the west side of Town Line Road. A berm had been constructed to screen work site and the noise. Concerns were voiced regarding the height and close proximity to the road. Drainage was also discussed. Safety concerns regarding kids was also voiced.

## THIRD STREET BRIDGE

The Council discussed the Third Street bridge issue with residents. The current bridge has been in place since 1912. Suggestion was submitted to replace the bridge with a covered walking bridge. If a culvert were constructed, would additional parking be available was also a point for discussion.

Replacement costs were relayed which included state contribution. Question was asked about water flow if changes were made. The issue was discussed. It was the experts' opinion that the bridge could last another ten to fifteen years. Which funds would be used to replace the bridge? Would taxes be increased? It was the city's hope to use tax increment funds. Traffic change was talked about, including the effect if this bridge were closed. This issue will be discussed further in the future.

## Heritage Preservation Commission

Motion was made and carried that the city allocate to the Heritage Preservation Commission (HPC) on a quarterly basis, an amount equal to fifty percent of the funds donated to the HPC by Building Inspections, Inc. The understanding is that any such new allocations would be over and above the amount previously budgeted for the HPC for the calendar year 2000.

## MUNICIPAL UTILITIES

At a meeting, the decision was made that Well #2 should be installed near the existing water tower.

## COMPUTER UPGRADE PROCESS

Administrator reported to the council that there had not been any Y2K problems. IBM computers have been installed. Network server and connecting computers are still required to be done. Developing a web site was discussed. It was the council's consensus to send the administrator to a seminar for web site set up.

## MISCELLANEOUS

A "STOP" sign at Sixth Street West and County Road #147 would not be considered at this time by the county. Traffic volume or accidents occurring at this site do not warrant a sign at this time.

Council "Organization Resolution" was reviewed and appointments made by motion for the year 2000.

The administrator had attended the commissioners' meeting regarding the City of Carver. The county's Comprehensive Plan is complete. Carver was asked to review the plan and return comments to the county commissioners.

Amphitheater issue is still up for discussion. The council would like to speak with the advocates of the venture, but have received no response. Attempts will continue to arrange a meeting.

## CARVER CREEK ADDITION

Council discussed clustered mailboxes in Carver Creek Second Addition. These types of boxes were not required anywhere else. Snow plowing would be made easier with these types of boxes.

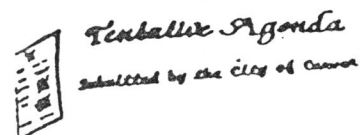

## CARVER LIONS

The Carver Lions are planning to attend their mid-winter convention in Mankato, February 12th through the 14th.

### REMINDERS:

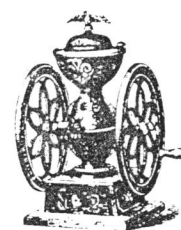

Eyeglasses can still be deposited at the Carver Depot.

New members are always welcomed and needed. Lions meet the first and third Wednesday of each month at the Village Hall.

YELLOWSTONE RACCOONS

By: Norma Timmons

The Yellowstone Raccoon Club had its December meeting at Auburn Manor, following a community service project of helping decorate the Manor for the holiday season. Following the decorating, the members sang carols, and had a pizza party complete with a gift exchange.

Their January meeting was held at the home of member Tad Thon. The meeting was called to order by President Bryan Theis. The group moved to donate \$25 to the Walk for a Cure for juvenile Diabetes, a request made by member Matthew Timmons who was attending the walk with his family and friends. The group was informed of an upcoming county project day that will be at the Co-op in Chaska on February 19. Members who had gone shopping for items for the family from Guatemala reported on their purchases. Discussion regarding the February meeting produced the motion to have an ice-skating party at Jordan's Lagoon Park, with the home of Matt and Julia Timmons as a back-up in case of bad weather. The meeting was adjourned and then the family who had recently arrived from Guatemala was introduced. Juan and Maria have four children and the 4-H members gave them cards, presents and many welcomes. Because the father was the only one who spoke English, the members learned first hand on the process of translation. Words were not needed to see the fondness each group had for each other. Snacks decorated with American flags were served and enjoyed by all.
