

*Volume XXXVI*  
*Number Two Hundred Seventy*  
*January / February 2011*

### *New Year - New Decade*

Welcome to 2011. Welcome to the new city officials beginning their terms for the City of Carver. A first step into still another year. What will this year bring each and every one of us. Many of us will experience unexpected surprises, some pleasant and some not. How will we deal with them? Will it make us better human beings? Will it devastate us?

No one knows except the one experiencing the event and not even they can predict their actions. We all have a preconceived notion of how we think we will react, but reality and thoughts do not always coincide when push comes to shove.

The economy for some is either still slowly improving, a gradual progress in motion and still for others it is a terrible struggle causing havoc in their lives. Where each individual sits on this pendulum sometimes is completely oblivious to those who should be aware of these circumstances and who have the power and responsibility to improve these situations.

The struggles by all effect everyone in some way or another. Some more obvious than others. If one can't work, obviously they can't bring in any income to pay their bills causing a snowball effect of starvation, homelessness spiraling the problem into a sinking whirlpool of devastation. That is the more extreme obvious result of our state of affairs. A little more subtle example is the inability to purchase extras causing another business to fall short of their goals and eventually this will trickle down the chain and compound the forcing of more closures over time. Once again starting a domino effect of inability to keep the circle of businesses thriving and prospering. Does human kind really realize the piggy back effect of intermeshing between each and every business throughout the nation?

### *Parks*

The council reviewed and discussed the drafted Park Dedication Study. Approval was not being requested at that time the administrator informed the council. The city planner informed the council that the update was necessary because the last study had been done in 2002. Since then, the city's Comprehensive Plan has been updated to include a larger growth area. Therefore the Park Dedication Study requires updating. The Park Board has been developing the current study since early in the summer of 2010. This study coincides with the plans within the Comprehensive Plan adopted in 2008. An Open House was held whereupon residents reviewed the improvements included in the study and provided their comments.

The main focus at that time was the proposed parking lot at the Community Park. The purpose of the study was not to finalize site design work for any of the park or specific locations within each park for various improvements. Specific sites would be refined and discussed in the future. However, the Park Board recommended retaining the parking lot in the study and specific locations would be reviewed in depth prior to construction. The attorney stated preference to viewing line items in the budget for Park/trail maintenance.

**Beware of half-truths - you may get the wrong half!**

### *Freeway Commercial District*

At the November council meeting the council discussed and reviewed the drafted feasibility report for the Freeway Commercial District. The administrator pointed out that no actions were required at the present time. The engineers reviewed the Feasibility Report for Freeway Commercial District Utility and Street Improvements. The proposed project, the estimated costs, financing and scheduling were all discussed.

The city attorney stated the proposed agreements were being circulated to adjacent property owners of the district. This project is voluntary the attorney pointed out, further explaining that the agreements would commit the city if property owners approved the agreements. These agreements are required to be in place prior to the project being able to move forward. The properties would be assessed for their share of the street and utilities. The council was further informed that the county has told the city of changes to their policies regarding costs to be paid by the city on road and street light projects. The county's policy has been to pay approximately eighty percent of these costs to the fifty percent as their share. Negotiations are occurring currently between the county, the City of Chaska and the City of Carver. The council discussed contacting county commissioners about the proposed policy change.

At the January council meeting the mayor opened the Public Hearing. Review of the report was reexamined. The report was further reviewed with the construction of street and utility improvements to serve the new Mills Fleet Farm and adjacent property on a future backage road to the west of County Road #11 and County Road # 61. The project would be funded through assessments, although some properties will have deferred assessments pending future annexation, water and sanitary sewer funds a negotiated joint powers agreement with Carver County. The staff continues to work with agreements with property owners associated with the improvements in the Feasibility Report , along with Carver County on cost participation.

The city's financial consultant presented financial scenarios relating to costs and payments of improvements. The attorney suggested a continuance of the meeting. Motion was made and carried with all eyes with a Public Hearing continuance on the Feasibility Study/Freeway Commercial District until February.

### *Thank you*

Mary Williamson and James Weygand were thanked by the council for their years of service to the City of Carver as elected officials to the city. Each were presented with a plaque and a key to the city.

### *Miscellaneous*

Councilmember expressed concern regarding the log jam and the Union Pacific not removing the logs from the river by the bridge. Concerns were voiced regarding damage to the levee.

The council conducted their annual organizational resolutions appointing council officials for the 2011 year.

**Worse than a wise guy is a wise guy who's right!**

---

## *2011 Chaska Baseball Association*

The Chaska Baseball Association has on-line registration available on their website, ( [www.chaskabaseball.com](http://www.chaskabaseball.com) ) serving areas of Carver, Chaska, Victoria, East Union and Chanhasen. The registrations are for the 2011 summer season. "Chaska Baseball Association has a mission to provide quality baseball program promoting sportsmanship, development of baseball skills, teamwork and lots of fun."

"WINTER PLAYER DEVELOPMENT AND TRAINING will be start in January. The clinics will be instructed by Pitch-2-Pitch at the Pioneer Ridge School and Chaska High School. Please visit our website for the link to Pitch-2-Pitch for on-line registration. Limited space available by age bracket."

---

## *Water Recycling Ordinance*

The city planner stated that the Water Recycling Ordinance purpose was to assist the city in meeting water conservation goals. The proposal involves said car washes constructed after stated date be required to install measures ensuring portion of the water utilized is recycled prior to discharge into the sanitary sewer system. The proposed ordinance would not impact residents.

Mills Fleet Farm had expressed objections at one point, however, mention has been made that it no longer matters whether or not the city adopts the ordinance since the company more than likely would utilize the discussed technology in their car washes due to the benefits involved.

Motion was made and carried with all ayes adopting the ordinance adding the section relating to water recycling for car washes.

## *Fee Ordinance*

The council reviewed and considered the general fee ordinance verbiage relating to 'rate study'. This ordinance considers changes to non-land use section of Chapter 6 Fees. One question relating to the fees involved RiverSide Park Campsites. Motion was made and carried with all ayes adopting the ordinance amending Chapter 5 of the Carver City Code of Ordinances relating to fees.

The second ordinance involved the proposed changes to the cemetery lot increase fees. The council reviewed several questions. Motion was made and carried with all ayes adopting the ordinance amending Chapter 15 – Cemeteries.

## *Lions Park*

The council reviewed the issue of the roof repair at Lions Park with the outbuilding. The Public Works Director stated that the building was built in the mid-eighties with a rubber roof system. The roof is torn in several areas and is leaking. Repairs had been made previously but it was unlikely that patching would resolve the issue at this time. Quotes had been received to install a truss system with metal roofing or a quote for a complete new rubber roof. Question was asked when to expect to do the work. A roof is necessary and funds were budgeted in the Parks Capital Improvement Fund. Motion was made and carried with all ayes to accept the low quote for roof repair.

## *Surface Water Management Plan*

The engineer reported that he city completed their Surface Water Management Plan in 2008 that presented in that report were discussed and recommendations were that the staff proceed with the storm water area charge that incorporates regional conveyance system costs. The staff presently recommended implementing a storm water area charge and the fees ordinance.

---

## *Disclaimer*

The "unapproved" minutes of the council and the township have been referenced for the purpose of creating this information for residents in the City of Carver and the townships surrounding the city.

---

---

## *Carver Fire Department*

The Carver Fire Department held elections in November. The following officers were elected, Fire Chief 1 is Dan Meyer, Fire Chief 2, Scott Haas, Fire Chief 3, Phil Clay; Captain 1, Bob Doerfler, Captain 2, March Schmitz, Captain 3, Tim Carroll; Lieutenant 1, Cally Trimbo, Lieutenant 2, Alex Robb; Secretary, Cally Trimbo; and Member at Large, Matt Lewellen. Congratulations to everyone. Motion was made and carried with all ayes approving the officers as elected by the Fire Department members.

The council was updated on the new rescue engine and the truck committee would be going to review the truck prior to pre-paint inspection. The committee has been told to expect delivery in mid January.

The council was also told that the FEMA grant has not been awarded to the Carver Fire Department. Some planning needs to be conducted for the next step for replacing the aging air packs and bottles due to expire in the beginning of 2012. Reapplication can be done when the new cycle reopens.

The fire chief requested authorization from the council to purchase equipment for the Fire Department and approve a Change Order concerning the purchase of the new fire truck. The council discussed these items in length. Statement was also made that the townships be invited in the decision process and schedule a Fire Equipment Meeting. Motions were made and carried with all ayes approving the purchase and the change order for the CPR machine and the additions on the new truck. The other requested items were put on hold for budget amount verifications.

## *Carver Firefighters Relief Association*

The council needs to approve revisions to the Carver Firefighters Relief Association By-laws. The changes were made to the by-laws were primarily legal changes as to conform to the changes in State Law. The By-Laws had not been updated since 2006. The attorney also reviewed the changes and no problems were seen. Motion was made and carried with all ayes approving the Fire Relief Associations amended By-Laws.

## *Utility Rate Study*

The financial consultant gave a presentation involving the "Water and Sanitary Sewer Utility Rate Study". The goal of the study was to ensure long-term financial health of the utility enterprise funds and to provide a financial plan for expanding the municipal utilities system infrastructure as the city grows. The recommendations for 2011 included; no increase to municipal utilities rates; no increase to the storm water charge; decrease the sewer connection fee per residential equivalency unit; and increase the water connection charge. Suggestions was also submitted that the council consider changing the fee ordinance to include area charges and explore temporary water treatment options at Well # 4 that may delay expansion of the water system until more growth occurs.

## *Sign Ordinance*

The city planner told the council that the Planning Commission had made changes to the proposed sign ordinance. The commission had been working on this ordinance for quite some time. The discussion was focused on the sign size in the Freeway Commercial District. The Planning Commission recommended the smaller size sign and the council was steadfast in the larger size. The planner had prepared the ordinance amendment for the smaller size in the event the council was in agreement. Motion was made and carried with four ayes and one nay adopting the ordinance per the red line updated version.

---

"Our greatest fear is not that we are inadequate, but that we are powerful beyond measure."

~ Nelson Mandela

---

---

## *Regional Trail Master Plan*

The council discussed the Joint Powers Agreement entered into in January of 2008 between the Scott County Regional Rail Authority Board, Carver County Regional Railroad Authority and the Cities of Carver and Chaska involving the Minnesota River Bluffs and Scott County Connection Regional Trail Master Plan. The Joint Powers Agreement recognized trail use as one of the several uses that could be supported on the rail corridor, providing there is significant trail connection between the counties of Scott and Carver. The joint venture was for the purpose of identifying the necessity for a regional trail connection utilizing the Union Pacific railroad corridor and the river crossing. The council was considering approval or denial for declaring support for the MN River Bluffs and Scott County Connection Regional Trail Master Plan. The city's attorney expressed concern involving the plan reducing the height of the levee and making the trail wider. Questions also were asked regarding the removal of the railroad bridge and associated costs. The attorney stated that the consultants expressed concern regarding adopting resolution and it was his opinion that the council express support for the bridge and the consultants along with staff work out the details Councilmember expressed their support of the trail.

The council held further discussions on the Carver County Regional Trail Plan. A Joint Powers Agreement had been created in January of 2008. The agreement recognized that the trail use as one of the several uses that could be supported on the rail corridor, providing a significant trail connection between Scott and Carver counties. The MN River Bluffs and Scott County Connection Regional Trail Master Plan was prepared jointly with Scott and Carver counties identifying the need for a regional trail connection utilizing the Union Pacific Rail Road corridor and the river crossing.

Carver County is seeking the City of Carver's support for incorporating the Kenneth Frey Levee Trail as part of a possible regional trail, the use of City or city park property for trail segments, relating to the horseshoe area on the levee at the RiverSide Park Entrance and for trailhead opportunities at Depot Park, River Side Park and/or other downtown locations. The master plan has been reviewed by the city staff, consultants and the park board members. Motion was made and carried with all ayes adopting the resolution declaring support for the MN River Bluffs and Scott County Connection Regional Trail Master Plan.

## *LyleWood Parkway*

The city council discussed the request from a citizen concerning changing the traffic designation on LyleWood Parkway in the subdivision. The request was to change the direction of one way traffic to two way traffic. Originally the street was assigned a one way per the homeowners at the time of the development. The street was constructed wide enough in case changes were made at a later date. The engineer stated that conversion of the street would not be an adversity nor affect safety. The engineer recommended changing the traffic flow to two-way. It was also the engineer's opinion that the vehicle warrants for minimum volumes for multi-way stop control at Lylewood Parkway and Sunny Drive/Lane are not met. From an engineering stand point a four way stop control was not recommended. The existing streets are not collectors and are classified as residential streets.

The deputies input was requested on changing the directional street. The deputies recommendation was a 4-way stop for safety. The 20 mph speed was questions on the street. The deputy agreed that it was an unusual low speed on a city street. Another resident pointed out the request was unnecessary to open the street to 2-way traffic. Safety issues and traffic volume was talked about.

Motion was made and carried with all ayes approving changing Lylewood Parkway to a 4-way and a 4 way stop signs at the Sunny Ridge Drive and Sunny Ridge Lane and to change the speed to 30 mph. Councilmember commented that at times drivers are not driving as fast as it appears.

---

## *MN Warn System*

The public utilities supervisor explained to the council that MN Warn is a state wide water and wastewater agency response network. The key programs goals are Emergency Assessment, emergency response and recovery; Mutual Aid Agreement for sharing emergency resources with members; resources to help recover from a disaster; emergency contact network; and voluntary participation. For participating in the program there are not any membership fees or dues required. Participation in the program provides the city with access to equipment within the system at no cost while promoting the sharing of resources between the agencies. It was the supervisors opinion that this would be a very good organization to associate with. The mayor asked why the city had not joined previously. The supervisor only recently was able to research it. There were not any reasons voiced as to why the city did not enter into a mutual agreements with the organization. Motion was made and carried with all ayes to enter into the mutual aid agreement with MN Warn. Motion was made and carried with all ayes adopting the resolution authorizing the governmental unit to be a part of the MN Water Agency Response Network, dba/ MN Warn.

## *Mills Fleet Farm*

Mills Properties has applied for rezoning and preliminary plat approval. The Planning Commission has reviewed the applications and held a public hearing. There were no objections voiced for the proposed project, however concerns were discussion pertaining to visuals, signage and landscaping/screening of the premises. The Planning Commission submitted the recommendation to approve the project with specific conditions attached. The contingencies involved signage, vegetative screening or berming along the western edge of the property boundaries, screening along the south exterior storage wall enclosure, chain link fence and north/south street or driveway on Mills/Lano property line. Motion was made and carried with all ayes adopting the resolution approving the rezoning from agriculture to commercial district for the development of the business known as Mills Fleet Farm. Motion was made and carried with all ayes adopting the resolution approving the preliminary plat of lots, outlots and right-of-way on approximately eighty eight acres for Mills Properties for a plat know as Mills addition to Carver.

## *County Road 11*

Carver County received comments from the council relating to the two alignments under consideration presently. The preferred alignment was the choice also now being considered by the county. The proposed county project would be funded with federal and county funds. The city funding is not proposed. However, the feasibility report on the Freeway Commercial District proposes intersection improvements at County Road 11 and County Road # 51 resulting in widening portions of the proposed lane structure. This cost is being negotiated with the county and also is part of the future joint powers agreement with the county. Motion was made and carried with all ayes authorizing forwarded comments to the county pertaining to the alignment proposed.

## *Minnesota River*

The Public Works Director and council member appraised the log jam at the bridge site on the Minnesota River. Both commented on the log jam from the other side of the river was 'quite impressive'. It is the opinion of the two that the city needs to start removing the log jam immediately. The view from the other side presents quite a different perspective on the situation and there are concerns for the levee due to the log jam. Damage could occur in spring, serious damage. The city attorney had forwarded a letter and response was that the rail road was reviewing the issue. It is the opinion of the attorney that the rail road is not as responsive as the city expects. The attorney would attempt to contact the rail road again. Suggestion was submitted to forward photos of the situation to the rail road personnel.

The next get together for cards, games or just conversation is scheduled for Wednesday, February 9, 2011 at 1:00 p.m. to 4:00 p.m. in the basement of the Village Hall, hosted by Carver Lion Evelyn Grimm. If anyone would like to bring a favorite dessert to serve with coffee let Evelyn know at 952-448-9465. Bring a friend or family member.

Future Card Dates...

March 9, 2011  
April 13, 2011  
Break for Summer Fun  
October 12  
November 9  
December 14

### Carver Fire Steak Fry

Friday, February 4<sup>th</sup>, the Carver Fire Department invites you to their Third Super Bowl Weekend Steak Fry from 4 PM to 9 PM at the Village Hall. Come and get a VonHanson's steak and participate in the Silent Auction being held too. Adults can eat for \$10, kids steak is only \$ 6 or get a hot dog meal for \$3 for the kids. Alcoholic beverages will also be available and served. So come and have some fun with your neighbors and friends.

## East Union

## Elementary

## Carnival

February 11 2011

5 PM - 8 PM

Games ~ Prizes ~ Silent

Auction

East Union Elementary' Annual Carnival is right around the corner on Friday, February 11, 2011 from 5:00-8:00 pm. If you are unfamiliar with East Union, we invite you to attend our carnival and learn more about District 112's smallest elementary school.

The carnival is at the school and there will be many games with prizes for the children (and some for the adults too!) Dinner and snacks are available for purchase. There will also be a silent auction and 50/50 raffle. This year we have 4 passes to Walt Disney World, 2 roundtrip airfare tickets, hot air balloon rides, a Keurig platinum brewer and coffee, plus many, many other great items to choose from.

PTO is seeking support from local businesses. You may advertise with us for as little as \$25. We are also seeking donations to be used in the silent auction. All donations are tax deductible. They may be sent or delivered to the school or we would be happy to pick up at your location. If you have any questions, please email [EastUnionPto@live.com](mailto:EastUnionPto@live.com).

### Carnival Raffle Prize - 50/50 Cash

### Drawing

Ticket Price: \$ 1 ~ Are you feeling lucky? Purchase a 50/50 raffle tick for the East Union Elementary Carnival event and you could win half of the money collected for this drawing The total amount collected for this raffle will be split between the winner and the school. You do not have to be present to win and the winning ticket will be drawn at 8 PM. Beat the crowd....buy your ticket or tickets early. Tickets will also be available at the raffle table during the carnival. Please make checks payable to : East Union Elementary PTO. Good luck. Support your school.

### Carver Fire Department

The Carver Fire Department would like to remind you to please clear the snow around the fire hydrants. Keep your chimneys clean. Make sure house numbers are clearly visible. Be careful with free standing heaters that can tip over and start a fire when you are not looking. Have a safe and warm winter and be sure to attend the Annual Steak Fire. The new Rescue Engine is expected to arrive by the end of January.

**COMMUNITY PARK WARMING HOUSE**

Weekdays 5 PM – 9 PM  
 Saturdays 11 AM – 9 PM  
 Sundays 1 PM - 8 PM

Saturdays & Sundays from 4 PM – 5 PM  
 Leisure Skating Only  
 - No Sticks or Pucks Allowed -

[www.cityofcarver.com](http://www.cityofcarver.com), Parks and Recreation  
 for updated schedules/postings.

“No one can make you feel inferior without your consent.”  
 ~ Eleanor Roosevelt

will visit 3<sup>rd</sup> grade classrooms on Thursday and Friday, prior to the Saturday event to share his passion for reading and inspire some of our youngest student to become lifelong readers. A workshop for parents, teachers and librarians is also planned featuring Steven Layne.

‘What Parents, Teachers and Librarians Can Do to Nurture Lifetime Readers’ is scheduled for Tuesday, February 1<sup>st</sup> at 6:30 PM – 8 PM at the Chaska High School Auditorium. Register online or pay at the door.

For more information about *Hooked on Books...and the Arts, too!* Or the evening workshop, visit [www.ce4all.org](http://www.ce4all.org).

*Chaska McDonalds*

Remember on the first Tuesday of each month between 4PM and 8 PM, Chaska McDonald’s will be donating 10 % of their earnings to East Union Elementary School. So remember to support the school.

*Spaghetti Dinner*

The 2011 Spaghetti Dinner and Silent Auction at the East Union Lutheran Church is fast approaching. The congregation is taking donations and looking for volunteers to help with the dinner scheduled for February 13<sup>th</sup>, Sunday. Dinner will be served from 4:30 PM until 6:30 PM. The family can buy one ticket for \$25.00 and have a wonderful dinner or \$10 per adult ticket. You know it will be delicious. See ya’ll there!

*Park and Recreation Department*

The Park Board extended their thanks to Skip Lowe and Kevin Guenther for their many years of service on the Carver Park and Recreation Board. The residents, the staff and the Park Board all appreciated their commitment shown working to improve the Carver Park system and the recreational opportunities in the City. Thanks were also extended to the two men for their dedication to the City of Carver and all of their accomplishments during their tenures on the Park Board.

Reminder read and honor the posting for the Community Park Warming House hours. Remember on Saturdays and Sundays from 4 PM to 5 PM it’s leisure skating only. There are no Sticks or pucks allowed at this time. Check the city’s website under Parks and Recreation for updated schedules and/or postings. Thanks.

Upcoming programs are Dancing Feet for Ages 3 and 4 on Mondays February 21<sup>st</sup> through March 21<sup>st</sup> at 5 PM. On Wednesdays, February 16<sup>th</sup> through March 30<sup>th</sup> at 6:30 PM there will be Hatha Yoga Winter II. On the Last Friday of the Month is scheduled for Tot Time Open Gym, for ages on through five at 9 AM until 10:30 AM. Mark your March calendars for “Girls Just Want to Have Fun!”. A non School Day Hang Out is scheduled for March 28<sup>th</sup>, Monday. Baseball Skills Camp is also scheduled in March and is being taught by the Carver Black Sox team members on March 5<sup>th</sup>, 12<sup>th</sup> and 19<sup>th</sup>. Any questions, information and/or registrations for any of the programs and events can be obtained from the city’s website. In the event of inclement weather, call 952.448.2290, extension #4 for cancellation information.

*Help Wanted Positive Connections*

Applications are still being taken at Positive Connections for school bus drivers in the Eastern Carver County School District, formerly District #112/Chaska School System for the 2010-2011 school year. The hours are flexible, good company, check coming in and the summer off, unless of course, you would also like to drive for charters. If you are interested or you might be interested, please stop in at 460 Hickory Street in Chaska and ask for an application or call 952.361.0899.

*Hooked on Books*

Hooked on Books...and the Arts, too – February 19<sup>th</sup>, Saturday, 9 AM until noon at the Chaska High School. This year’s event features award winning, internationally recognized author, Steven Layne. Mr Layne is an entertaining and interesting speaker and

### *Carver Current*

Carver had still another access to the news locally. And yea, another technical stumbling block in the lives of those who do not own or have computers. But, remember you can always go the library and I just know you could get help. A resident thought it important that people have access to news too and has created a website for you to read, check and/or comment. Personally, I thought it important enough to pass along the information too. You can find interesting links and statements at [www.carvercurrent.com](http://www.carvercurrent.com). Hopefully, in the near future there will be additional news to share with everyone. This website is more current with information too.

Join Fresh Seasons Market, in Partnership with  
DiLusso Deli Company in Helping Area Schools Earn Money with

Fresh Seasons Market, in Victoria, is offering your school an opportunity to earn money by participating in the 2011 Share the Spirit Program. By participating, your school can win cash prizes for programming and/or equipment simply by shopping at Fresh Seasons Market and entering your receipts for the school of your choice. See details below.

1. Save your Fresh Seasons Market receipts dated February 1 - April 30, 2011.
2. Drop your receipts in the Tally Boxes located by the store exit.
3. Each dollar spent at Fresh Seasons Market during promotional period will earn one point (\$1=1 pt) for your school. Double your points when shopping on Tuesdays.
4. Receipts will be totaled weekly and results posted on the Tally Board located in the front of the store.
5. At the end of the promotion, the four schools with the most points will be awarded cash prizes from Fresh Seasons Market.

1st Place:
